

Amici

Albion Street

Since 2016, Amici has been a family run café by husband and wife duo Rezvan, (also known as Konti), and Sonya, (and their 5 year old daughter, Sara!).

Since taking over the business, they have been working extremely hard to create a relaxing atmosphere for their customers, where they can escape for a while from their problems, enjoy their food and drinks, and have a nice time in a friendly atmosphere.

Sonya said, “We do believe everyone who has visited us should leave Amici having had a good experience.

“Covid-19 has had a big impact on us, as with many small businesses. We have both suffered financially and emotionally during the lockdowns. This business is everything we have for our, and our daughter’s, future. Although a trying period, we are still here. We will be here for as long as we can!

“On the other hand, we have had a chance to get to know our customers better (strangely, thanks to the NHS Track & Trace Requirement !). We have been able to create an even safer environment. We have also introduced delivery options for our customers during this period.

“We are constantly striving to make changes in the cafe to further improve our customers’ experience at Amici.”

This is another business having seen hard times during not only two lockdowns, but now a third. However, determined and with the support of their customers, Amici is being as positive as possible and remain here to meet the future head on.
